Full-Stack Software Developer with an eye for design and a passion for building fully-responsive user-centric websites and intuitive applications. Always eager to learn new tech and broaden my skill set.

## Software Development Skills

- JavaScript, Node.js, React, React Native, Redux, TypeScript, Express, RESTful API, PostgreSQL, MongoDB, Sequelize, Bootstrap, Material-UI, Flexbox, HTML5, CSS3, Debugging

## Software Development Portfolio

**Simply Budget** | [simplybudget.co](http://simplybudget.co) | [github.com/Zac-Evans/simply-budget](https://github.com/Zac-Evans/simply-budget)

**Dec 2020**

- Lead a three-person development team designing and building a budgeting app with minimal UI and straight-forward budget tracking. The user experience allows for the ability to create and edit budgets, easily track their purchases, and see their budget progress throughout each month.
- Responsible for the main dashboard interface, Redux implementation, and UI design.
- Capstone project built with React, Redux, Node.js, Express, Sequelize, and PostgreSQL

**Fakeazon** | <https://bit.ly/3qpOM9E> | <https://github.com/Zac-Evans/fakeazon>

**October 2020**

- Member of a four-person development team building an e-commerce site that allows users to sell and buy a fine selection of cured Spanish ham
- Primary responsibility included developing the backend API, designing the main product page and populating it, and developing the checkout system.
- Built using React, Node.js, Express, Sequelize, and PostgreSQL

**Date Decider** | <https://bit.ly/2JEDXj3> | <https://github.com/Zac-Evans/Date-Night>

**August 2020**

- Member of a three-person development team building a website to help couples decide on plans for their date night.
- Responsibilities included developing the primary “date-deciding” application as an SPA and editing the site for a responsive UI.
- Built with HTML, CSS, JavaScript, and jQuery.

## Education

**DigitalCrafts | Certificate in Software Engineering | Atlanta, GA**

**June 2020 – Dec 2020**

- Software engineering training program covering full-stack development including, but not limited to JavaScript, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.

**The University of Texas at Austin | M.M. Jazz Composition | Austin, TX**

**August 2014 – May 2016**

**Kennesaw State University | B.A. in Saxophone Performance | Kennesaw, GA**

**August 2009 – May 2013**

## Professional Work Experience

**Freelance Web Developer | Atlanta, GA**

**February 2020 – Present**

- Designed personal websites, primarily portfolios for local musicians
- Currently developing a mobile application for tracking endometriosis symptoms

**Georgia State University, Perimeter College | Instructor | Atlanta, GA**

**May 2016 – Present**

- Instructor lecturing on saxophone performance, clarinet performance, jazz history, and jazz combos.
- Designed and implemented curriculum for both in-person and online courses.

**Georgia Symphony Orchestra | Education and Outreach Coordinator | Marietta, GA**

**May 2016 – May 2018**

- Redesigned and maintained the website for the youth orchestra utilizing Wordpress with custom plugins.
- Coordinator for the daily operations for a 300+ member youth orchestra with seven unique ensembles.
- Managed a five-person team of collegiate interns to assist in managing weekly rehearsals and concerts.
- Responsible for organizing rehearsals and concerts, communications via Constant Contact and Mailchimp, social media marketing, and coordinating and promoting intensive yearly auditions.

**Freelance Musician | Atlanta, GA, Austin, TX**

**March 2010 – Present**

- Produced, composed, and recorded multiple albums for large jazz-oriented ensembles. Coordinated the promotion, overall organization, and release of each recording.
- Maintained an active private teaching studio of 30+ students teaching saxophone, flute, clarinet, piano, and guitar
